In December 2021 Danish Parliament changed the requirements for publication of management members salary conditions. The change is caused by data protection rules and consequently the individual salary conditions of the Board of Directors and Management Board are no longer published in the Annual Report.

The change, which applies to financial institutions subject to the Financial Business Act, applies to annual reports for 2021 onwards. Therefore information on individual salary conditions appears in this report in accordance with the Financial Business Acts Section 77d.
